To whom it may concern

Dear Resident

Lister House Medical Centre

I am writing to introduce Hutton Construction Limited and our Site Manager, Adrian Wright who is the site manager responsible for the building of the new Lister House Medical Centre.

As you will see, works have now started on the project, the enabling works completed and sub-structure works nearing completion. We are progressing well with the main car park works.

During the time that the above works are being undertaken, we will endeavour to ensure that everything is carried out to make the process as neighbour friendly as we can.

Below is a brief outline of how the project will progress over the next few months

Programme:

- 1 Month Look Ahead: The foundations have been completed and all underground drainage pops ups.
- 2-3 Month Look Ahead: External works will continue over the next 12 weeks, along with installation of the concrete frame.

Yours faithfully

Penny Weller
For and on behalf of
HUTTON CONSTRUCTION LIMITED
